Preface

Dear friends and colleagues,

It is a pleasure to welcome you to the 17th meeting of the Section of Epidemiology and Social Psychiatry of the European Psychiatric Association (EPA). Following the meetings at Bergen and Maastricht it is an honour for us to host this conference.

On the following pages you will find the final program. Please kindly note our participant information (page 8 ff) which gives you directions, information for presenters and details of the social program. The program comprises of 242 scientific contributions from over 30 countries, and we are grateful to all presenters, to our distinguished keynote speakers and to colleagues who agreed to chair a session for their active contributions to our conference.

The conference starts with pre-conference courses and a young researcher symposium on Wednesday. During the following two-anda-half days a large number of scientific contributions will focus on a wide range of topics related to the overall conference theme of "Disease Burden and Service Delivery". Sessions will cover topics such as challenges of psychiatry for the elderly, work environment and mental health, the individual and societal burden of mental disorders, family mental health and community care interventions. There will be lectures on user-led research in mental health care practice and service quality and service effectiveness. A revised classification for mental disorders in general medical settings – the ICD11-PHC will be discussed in the closing lecture. Overall, the scientific program consists of 26 symposia, 16 oral presentation sessions and 40 posters. Among other things, you will find a USB stick containing the book of abstracts in your conference bag.

We are very pleased to welcome all participants to the welcome reception at the conference venue (on Thursday evening) and to the conference gala dinner at the Stadthaus Ulm on Friday.

Finally, it is important to say that we are very lucky to have been part of an outstanding conference organising team. We are especially grateful to Jana Konrad who, supported by Bianca Reitenauer and Suzanne Cosh, did a wonderful job managing the conference office, to Tanja Kohler and Gaby Vierling at Hapag-Lloyd Ulm for the exceptional organizational support, to Sven Schneider for programming the online submission tool and to the entire staff of Ulm University's Department of Psychiatry II for their great support at the Edwin-Scharff-Haus. We thank Ulm University Medical Faculty, the Bezirkskliniken Schwaben, our hospital trust and the Deutsche Forschungsgemeinschaft (DFG) for their generous support of this conference. Finally, we want to thank Nadja Zentner and Bernd Puschner for their support: we were able to benefit a lot from their excellent preparation of the IXth ENMESH International Conference 2011 in Ulm.

We look forward to the scientific exchange and debate in the course of the 17th meeting of the EPA Section of Epidemiology and Social Psychiatry, and we wish all participants an enjoyable and stimulating stay in Ulm.

For Presenters

Symposia

Symposia will be 90 minutes, including a minimum of 15 minutes for open discussion. It is essential that presenters leave ample time for discussion of their work with members in the audience. You will have a **15-minute** time slot for your presentation.

Where a symposium has a prepared discussant, authors should send him or her their presentations well in advance of the conference.

Oral Presentation Sessions

Oral Presentation Sessions will last 90 minutes and consist of five to six presentations, with at least 5 minutes for discussion allotted to each. You will have **10 minutes** for your presentation.

Audio-Visual Equipment

At least 15 minutes before the start of your session, please bring to your lecture room a copy of your presentation on a CD-ROM or USB media storage device. Conference organizers will load all presentations onto conference computers.

Lecture rooms will be equipped with a PC computer and a data show for PowerPoint, Word, Excel or Acrobat Files. There will also be a microphone and a standing lectern. No VCR, overhead projector or carousel slide projector will be provided. Macintosh computers will not be available. It will not be possible to use your own computer.

Please prepare your presentation in a single PowerPoint, Word, Excel or Acrobat file to run on an IBM compatible computer with Microsoft Office

Posters

There will be 5 guided poster sessions with about 8 posters in each. Each session will be moderated by two chairs; the chairs will guide the group from poster to poster and ask for a brief presentation from the author (who should be standing by his or her poster). Each session will end with a brief discussion. Please keep in mind that many attendees will appreciate receiving a hand-out that summarizes your research findings.

Poster prizes will be awarded to the three best posters at the Closing session. Posters will be judged by the Poster Prize Committee in collaboration with the session chairs on the following criteria: scientific quality, poster presentation, and quality of the brief oral presentation.

Poster dimensions must be **DIN A0 portrait format** (84.1 x 118.9 cm = 33.1 x 46.8 inches). We will provide a freestanding display frame on which you can mount and display your poster. The display fram will have your poster number on it..

Please put up your poster as early as possible upon arrival at the conference and do not remove it before the end of the conference (Saturday 2:00 p.m.) in order to give as much time as possible for attendees to view the posters outside the poster sessions. Please do not remove your poster before Friday, May, 23, 5 p.m. so that the members of Poster Prize Committee can complete their work.
