

Dr. Blanca Bolea **Biography**

Dr. Blanca Bolea, M.D, Ph.D.(Epidemiology, University of Bristol, UK), M.Sc. (Affective Neuroscience, University of Maastricht, Holland), works as a general psychiatrist at Women's College Hospital where she is director of the SCOPE Mental Health Program, a collaborative mental health care initiative. She is an Associate Professor at the University of Toronto. She has published extensively in areas of relevance to her interests and academic training in psychopharmacology, psychiatric epidemiology, ADHD and biological markers of psychiatric illness. She is an innovation fellow at Women's College Hospital Institute for Health System Solutions and Virtual Care (WIHV), where she is piloting the use of an ecological momentary assessment for the diagnosis and treatment of PTSD, ADHD and other psychiatric comorbidities. She is the principal investigator in several service development evaluations examining patient outcomes after receiving psychiatric care with the objective of developing digital solutions to address gaps in care.
