WELCOME LETTER

Dear Colleagues,

It is our great pleasure to welcome you to the **22nd European Congress of Psychiatry (EPA 2014)**, taking place 1-4 March 2014 in Munich, Germany, a major congress of international psychiatrists dedicated to promoting European psychiatry and to improving mental health around the globe.

Having celebrated its 30th Anniversary in 2013, EPA recognises the importance of strong historical links to European psychiatry and therefore Munich, with its connection to over one hundred years of psychiatry, is an excellent choice to welcome us in 2014.

Guided by the motto **“European Psychiatry Focusing on Body and Mind”**, we have prepared a top-notch scientific programme that will review the most important aspects of diagnosis and treatment in psychiatry and examine the latest achievements in the field.

Through a variety of session types, including Plenary Lectures, EPA Academia Educational Courses and a dedicated European Early Career Psychiatrists Programme, EPA 2014 will meet the needs of all participants, from trainees in psychiatry to the most esteemed professors.

At EPA 2014 we are happy to introduce a new session type, Meet the Experts, which will allow participants the opportunity to meet some of the EPA Speakers in a small group, and discuss real life clinical issues and practical solutions and strategies.

The EPA is committed to helping psychiatrists network, share research and learn from their colleagues and peers across Europe and beyond. Accordingly, we have developed an array of activities at the European Congress of Psychiatry which will allow these valuable connections to continue and flourish.

We welcome you to the enchanting city of Munich and to EPA 2014!

Please Tweet about the congress using the hashtag #EPA2014Munich and username @Euro_Psychiatry.

MOBILE PHONES

Mobile phones must be switched off or muted during all sessions.

SMOKING POLICY

Smoking is prohibited throughout the Congress venue. Please be considerate of the rules of the venue and your fellow participants.

LIABILITY AND INSURANCE

The Congress Secretariat and Organisers cannot accept liability for personal accidents or loss of or damage to private property of participants. Participants are advised not to leave their personal belongings unattended in session halls and throughout the Congress venue.

CARING FOR THE ENVIRONMENT

It is our belief that by employing a Green Culture in the workplace we can duplicate this culture and the responsibilities it entails. Organising green Congresses all over Europe is a real challenge as green is not only the onsite conduct but the suppliers we are using, the source of the raw materials, the methods of production, management of waste, shipping vs. using local products and fair management of labour throughout the supply chain.

PHOTOGRAPHY AND RECORDING PRIVILEGES

No photographs, video recording or audio recording may be permitted in the scientific sessions at this Congress unless otherwise authorized by the Programme Committee or the EPA President.

GUEST ATTENDANCE POLICY

All event activities (including educational sessions, meal functions, exhibition hall, etc.) are exclusively reserved for registered attendees. Non-registered guests (including children, family members, colleagues, etc.) are not allowed in any of the event areas. Badges provided at registration are required for entrance into all functions and will be strictly enforced.

CONGRESS ACCREDITATION AND CERTIFICATE OF ATTENDANCE

CONGRESS ACCREDITATION

Accreditation Statement and Credit Designation

European Accreditation Council for Continuing Medical Education (UEMS/EACCME)

The 22nd European Congress of Psychiatry EPA2014 has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide the following CME activity for medical specialists. The EACCME is an institution of the European Union of Medical Specialists (UEMS): www.uems.net.

American Medical Association (AMA)

Through an agreement between the European Union of Medical Specialists and the American Medical Association, physicians may convert EACCME credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME credit to AMA credit can be found at www.ama-assn.org/go/internationalcme.

Royal College of Physicians and Surgeons of Canada

Live educational activities, occurring outside of Canada, recognised by the UEMS-EACCME for ECMEC credits are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada. For more information, visit: www.royalcollege.ca.

To Receive Your CME/CPD Certificate

Your CME/CPD certificate will be delivered electronically after completing the educational evaluation and credit claiming procedure. The process will take 5 minutes. We thank you for your feedback as it is an important part of the CME/CPD accreditation process and helps improve future educational offerings.

Before 11 April, 2014:

- Follow the link in the email notification sent at the end of the event, or visit the CME/CPD Accreditation page on the event website
- Complete the anonymous online evaluation
- You will be automatically directed to the credit claim system
- Login with your unique User ID (included in your registration package, on your badge, or in the email sent after the event)
- Indicate the number of hours you attended
- Your CME/CPD certificate will be automatically emailed to the address provided
- Retain the certificate for your personal records

Disclosure and Resolution of Personal Conflicts of Interest

In accordance with CME/CPD accreditation criteria and standards for commercial support to ensure balance, independence, objectivity, and scientific rigor in CME/CPD activities, those in control of the educational content must disclose potential or actual conflicts of interest, whether due to a financial or other relationship. Presenters have been asked to include a disclosure slide at the beginning of their presentation. Participants will be asked on the evaluation to assess the objectivity and independence of the event.

Industry Support Disclosure

This event is supported, in part, by funding from industry. All support is managed in strict accordance with CME/CPD accreditation criteria and standards for commercial support. Appropriate acknowledgement of all supporting organisations is made in the programme guide, on the event website, and with signage during the event. Disclosure is made to participants prior to the activity. Industry support information is available on page 391 of the Final Programme and also on the Congress website at www.epa-congress.org.

Commitment to the Highest Standards in CME/CPD

Kenes International is committed to being a valuable and knowledgeable partner in the design and delivery of educationally strong, independent, transparent, and effective CME/CPD programmes. Kenes International is a proud member of the Good CME Practice Group (gCMEp), a member organisation contributing to improving health outcomes by:

- Championing best practice in CME
- Maintaining and improving standards
- Mentoring and educating
- Working in collaboration with critical stakeholders

CERTIFICATE OF ATTENDANCE

Certificates of attendance will be delivered electronically after completing the educational evaluation and credit claiming procedure following the Congress.

Bayerische Landesärztekammer (BLÄK)

The 22nd European Congress of Psychiatry (EPA 2014) is accredited by the Bayerische Landesärztekammer (BLÄK) to provide the following CPD activity for medical specialists. The Bayerische Landesärztekammer (BLÄK) is together with 63 medical district associations (ÄKV) and eight district medical associations (AEBv), the statutory representative of all Bavarian physicians. For more information please visit www.blaek.de

The 22nd European Congress of Psychiatry (EPA 2014) is designated for a maximum of, or up to 21 Category B CME credits. Each physician should claim only those hours of credit that he/she actually spent in the educational activity:

01/03/2014, VNR 2760909004842230014, 3 credits Category B
02/03/2014, VNR 2760909004842230022, 6 credits Category B
03/03/2014, VNR 2760909004842230030, 6 credits Category B
04/03/2014, VNR 2760909004842230048, 6 credits Category B

German physicians wishing to receive credit must scan their badges at least one time per day. There will be scanning stations at the registration desk. Attendance records will be kept on file by the event organiser.

EPA ACADEMIA EDUCATIONAL COURSES

EPA Academia Educational Courses, Accreditation and Certificate

EPA Academia Educational Courses will be held throughout the Congress. Pre-registration for Courses is required. Participants are requested to present their Course ticket at the entrance of the appropriate hall.

ACCREDITATION

The EPA Academia Educational Courses are accredited within the accreditation of the 22nd European Congress of Psychiatry EPA 2014. These are to be claimed within the total number of CME credits claimed for EPA 2014, while respecting the maximum number of credits per day.

Certificate of Attendance at Courses

The course certificate of attendance will be delivered electronically after completing the educational evaluation online. The link to the evaluation form will be sent to each course participant shortly after the congress.

ONLINE

Evaluations and CME Certificates

Your CME certificate will be delivered electronically after completing the online evaluation and credit claiming procedure. Your feedback is an important part of the CME accreditation process and helps improve future educational offerings. The process will only take 5 minutes.

 - c) Follow the link in the email sent to you after the event
2. Complete the anonymous online evaluation
3. You will be automatically directed to the credit claim system
4. Login with your unique User ID (included in your registration package, on your badge, and in the email sent after the event)
5. Indicate the number of hours you attended
6. Your CME certificate will be automatically emailed to the address provided
7. Retain the certificate for your personal records

e-POSTERS

Congress participants and EPA members will be granted access to an advanced e-Poster platform, which provides user-friendly access to a large number of selected posters online, during and after the Congress. Users will be able to browse by poster sections and features educational tools such as searching for specific content, being able to comment on posters and ask questions to the authors. When permitted by the authors, posters will be available for download in PDF format. e-Poster viewing stations will be available at the Poster Area.

e-POSTERS ORAL PRESENTATIONS

From the hundreds of abstracts selected for e-Poster presentation, a selected number of e-Posters have been selected for a short oral presentation, including 2-3 slides to present the poster. There will be 8 e-Poster Oral Presentation Sessions at EPA 2014. Each session will include about 22 e-Poster presentations of about 4-5 minutes each. e-Poster Sessions will be held throughout the Congress on Sunday, Monday and Tuesday, covering a wide range of topics. Please refer to the Final Programme for additional information regarding the posters chosen for e-Poster Sessions, and information regarding time and location of the e-Poster Presentation Sessions.

e-POSTER POSTER WALKS

There are 15 e-Poster Poster Walks scheduled on Sunday, Monday and Tuesday. Each Poster walk will feature between 20 and 30 e-Posters. Please see the Poster Walk Overview for the schedule of topics. e-Poster Walks will take place in the Poster Area.

POSTERS

Posters will be on display on three days: Sunday 2 March, Monday 3 March and Tuesday 4 March with a daily rotation. Posters should be displayed as per the date and the number in the programme. Posters are mounted from 08:00 on your assigned day. Please remove your poster at the conclusion of sessions on the same day. The Organising Committee will not be responsible for posters that are not removed on time. Poster presenters are requested to be present at their designated poster board(s) to answer questions during breaks.

WEBCASTS

EPA is pleased to announce that a selection of sessions at the 22nd European Congress of Psychiatry will be recorded and made available online on the European Psychiatric Network as webcasts.

Data presentation

If using a PowerPoint presentation (or any other PC based application), please note you need to bring it on USB Memory stick or CD/DVD and load it on one of the conference computers in the Speakers' Ready Room at least 1 hour before the start of the session. Please note that the Congress computers in the session halls are supplied with Office 2013.

If combining video films with PowerPoint, please make sure to check it in the session hall where your lecture is taking place during a coffee or lunch break prior to your session, at least 1 hour before the start of the session - even after checking it in the Speakers' Ready Room.

Alternatively you may supply your own laptop computer. In such a case please confirm that it has a VGA socket for external signal and come to check it first in the Speakers' Ready Room as soon as you arrive and later on in the session hall where your lecture is taking place during the coffee or lunch break prior to your session, at least 30 minutes before the start of the session.

Important note for Macintosh users

In order to use MAC presentations on a PC compatible computer please note that you need to prepare it according to the instructions below, before bringing it to the Speakers' Ready Room:

1. Use a common font, such as Arial, Times New Roman, Verdana etc. (special fonts might be changed to a default font on a PowerPoint based PC).
2. Insert pictures as JPG files (and not TIF, PNG or PICT - these images will not be visible on a PowerPoint based PC).

Alternatively you may use your own Macintosh laptop computer. In such a case please confirm you provide it with a VGA adaptor for external signal, advise the operators in the Speakers' Ready Room about it as soon as you arrive and later on test it in the session hall where your lecture is taking place during the coffee or lunch break prior to your session, at least 30 minutes before the start of the session.

PLEASE NOTE:

IN COMPLIANCE WITH EACCME REQUIREMENTS ALL SPEAKERS ARE REQUESTED TO INCLUDE A SLIDE DISCLOSING CONFLICTS OF INTEREST AT THE BEGINNING OF THEIR PRESENTATION.

INFORMATION FOR e-POSTER PRESENTERS

If you have not submitted your e-Poster prior to the Congress via the Poster Helpdesk online system, please bring it on a USB key to the Speakers' Ready Room.

INFORMATION FOR POSTER PRESENTERS

ABOUT THE EUROPEAN PSYCHIATRIC ASSOCIATION

The European Psychiatric Association (EPA) was founded in 1983. With active individual members in as many as 81 countries and 33 National Psychiatric Associations who joined as members in 2012 and who represent over 77,000 European Psychiatrists, EPA is the main association representing psychiatry in Europe. Its mission is to improve psychiatry and mental health care in Europe. EPA members include leading experts in numerous fields, covered by 19 scientific Sections. EPA's activities address the interests of psychiatrists in academia, research and practice throughout all stages of career development. Together, EPA members contribute to the life of the association and to the development of Psychiatry in Europe. Each member has the possibility to actively contribute to ongoing projects and play a key role in shaping the future of the Association and its policy.

One of the important tasks for a European association is to maintain strong links with other European and international institutions and associations such as the Council of Europe, the World Health Organization (WHO), the European Union (EU), the European Union of Medical Specialists (UEMS), the European College of Neuropsychopharmacology (ECNP), the World Psychiatric Association (WPA), the European Brain Council (EBC), the European Federation of Psychiatric Trainees (EFPT), the European Conference on Schizophrenia Research (ECSR) and several patient and relatives organisations, such as the European Federation of Associations of Families of People with Mental Illness (EUFAMI) and the Global Alliance of Mental Illness Advocacy Networks-Europe (GAMIAN-Europe).

MISSION

To improve psychiatry and mental health care in Europe.

ACTIVITIES

EPA accomplishes its mission through the following activities:

- Annual European Congress of Psychiatry
- *European Psychiatry* Journal, published in 8 issues per year, plus supplements
- EPA Academia Educational Courses, Summer School, Faculty Workshop and other forms of training under the umbrella of the EPA Academia for Excellence in European Psychiatry
- European Early Career Psychiatrists Programme and other projects aiming to give young professionals a voice in the evolution of training, research and practice standards to enable them to influence their own future and career progress
- A range of grants and prizes in psychiatric research
- 19 Sections, which collect, examine and disseminate information about their respective disciplines

- Cooperation with National Psychiatric Associations through EPA membership
- Practical guidance and position statements on topics of interest to the mental health community and beyond
- Initiatives on improving ethical standards of psychiatric care and practice
- Collaborative activities in partnership with international organisations working in the field of psychiatry and mental health care

ACADEMIA

The EPA Academia for Excellence in European Psychiatry is aimed at developing educational initiatives that will contribute to professional excellence of European Psychiatrists and their adoption of the highest ethical principles in all forms of psychiatric service, education/teaching and research. The activities are defined and developed by the EPA Committee on Education and focus at present on proposing EPA Academia Educational Courses, organising a Summer School and other forms of training.

The EPA Academia Educational Courses Programme intends to increase knowledge, influence attitudes and provide professional and leadership skills to European Psychiatrists. The EPA Academia Educational Course are generally 180-minute sessions designed to emphasise learning experiences that actively involve participants and include an opportunity for informal exchange with the faculty.

EUROPEAN PSYCHIATRIC NETWORK Launched in 2011 by EPA, the European Psychiatric Network is a professional social community that provides exclusive access to a vibrant online exchange of ideas and information about hot topic issues in the psychiatric field. The Network brings with it a host of exclusive benefits, which allows you to:

- View and discuss highlighted e-Posters and webcasts
- Create searchable profiles with your research interests and publications
- Upload poster presentations, images, and videos
- Start or participate in forum discussions
- RSVP to upcoming events in psychiatry
- Gain visibility as an EPA member

To join the exclusive European Psychiatric Network, and begin networking with other European mental health professionals today please visit: www.europsychiatric.com or scan the QR Code.

mPIVAS PROJECT

The EPA is a full partner in European-level project called mPIVAS (mHealth psychoeducational intervention versus antipsychotic-induced side effects), initiated by the EPA Early Career Psychiatrists Committee (ECPC) and funded under the European Commission's Leonardo da Vinci Partnerships Programme.

The project aims at improving the monitoring of side effects of antipsychotic medication in clinical practice. For this purpose, innovative psychoeducational courses on the subject will be organised for mental health professionals during EPA Munich 2014 as well as in project countries, and a mobile application (PsyLOG) facilitating the monitoring of side effects will be produced.

The psychoeducational course held during the EPA Munich 2014 is composed of 3 training workshops. All interested congress participants are cordially welcome to attend the first 2 training workshops. The 3rd training workshop is reserved to the members of the national teams participating in the mPIVAS project.

PRIZES AND AWARDS

One of EPA's missions is to accompany Early Career Psychiatrists in their professional development. The Association proposes a panel of grants and prizes. The European Psychiatric Association is delighted to award the following prizes at the 22nd European Congress of Psychiatry. The Award Ceremony will take place during the Opening Ceremony on Saturday 1 March at 18:30 in Hall 14B.

2014 RESEARCH PRIZE WINNERS

Five Research Prizes of € 2,500 each to Early Career Psychiatrists working in Europe, who published the best scientific papers in 2013, have been awarded to:

- Category 1: Clinical psychopathology and refinement of psychiatric diagnostic categories

2014 SCHOLARSHIP PROGRAMME FOR EARLY CAREER PSYCHIATRISTS & TRAINEES

The EPA Scholarship Programme provides a special grant including free congress entrance to the European Congress of Psychiatry, travel expenses, hotel accommodation, complimentary registration for one EPA Academia Educational course, invitation to Early Career Psychiatrists Luncheon and free EPA membership in 2014. The scholarship is available for early career psychiatrists who are either trainees or within 5 years of completion of specialist training in psychiatry and who are working in countries that form part of the World Health Organisation Europe region.

The 2014 scholarship has been awarded to:

Anastasiya Nestsiarovich, Belarus
Alessio Maria Monteleone, Italy
Eugenia Sinita, Republic of Moldova
Lauriane Vulliez-Coady, France
Charlotte Allan, United Kingdom

TRAVEL AWARDS

The Travel grant applications were judged based on the scientific merit of the abstract submitted to the Congress. Priority was given to applicants belonging to a national psychiatric association that is a member of EPA's Council of NPAs. The names of the Travel Awards winners are published on the Congress website www.epa-congress.org.

BEST POSTER PRIZES

Ten Poster Prizes of €300 each will be allocated by the poster award jury. The selected posters will be displayed and the names of the Poster Prize winners will be published on the congress website www.epa-congress.org.

EPA SECTIONS

EPA has established sections that have their own steering committees. The 19 active EPA sections focus on the different subspecialties of psychiatry. Their mission is to collect and disseminate information, to establish working relations between individuals and with different national and international bodies working in the same field, and to achieve greater coordination. These Sections can organise their own symposia under the aegis of EPA, and annual conferences in Europe.

The EPA sections are:

- **Addictive Behaviours** (Chair: Falk Kiefer, *Germany*)
- **Child and Adolescent Psychiatry** (Chair: Gil Zalsman, *Israel*)
- **Consultation Liaison Psychiatry and Psychosomatics** (Chair: Albert Diefenbacher, *Germany*)

SCIENTIFIC PROGRAMME OVERVIEW

The EPA 2014 Scientific Programme is composed of 5 main tracks; each track is composed of a variety of Plenary, State of the Art, Pro & Con Debates, Symposia, and Workshops sessions:

-  **Research Track** – composed of sessions with a focus on current research trends in psychiatry
-  **Clinical / Therapeutic Track** – offers participants updated, state of the art, clinical and therapeutic information which is based on research and linked to daily practice.
-  **Educational Track** – the sessions in this track provide an update on developments in the field and the opportunity for exchange of ideas between participants and speakers.
-  **ECP Track** – the sessions in this track are the sessions of the European Early Career Psychiatrists Programme. Learn more about the EECPP Programme on pages 39-40.
-  **European Track** – the sessions in this track will deal with common issues for psychiatrists from across Europe and will therefore be of particular interest for members of the National Psychiatric Associations.

The Scientific Programme will also include:

-  **Free Communications Sessions** – there are 13 Free Communications Sessions classified by topics, in which the authors of selected outstanding abstracts will give a talk.
-  **Sponsored Sessions** – there are 10 Satellite Symposia organised by pharmaceutical companies in consultation with the Scientific Programme Committee. Learn more about the Satellite Symposia on pages 392-397.
-  **e-Posters** – there are 8 e-Poster sessions classified by topics, in which outstanding posters will be presented electronically and orally. There are also 15 daily e-Poster Walk Sessions that take place during the lunch breaks
-  **Posters** – with a daily rotation, authors have been invited to present their new research findings or important ongoing research as posters. Poster information is available on pages 291-358.

NEW TREATMENT STRATEGIES IN ALCOHOL ADDICTION

Chairpersons: M. Musalek (*Austria*)

W. van den Brink (*The Netherlands*)

8:00 **IMPROVING ALCOHOL TREATMENT
EFFECTIVENESS THROUGH STAGING AND PROFILING**
W. van den Brink (*The Netherlands*)

8:20 **REDUCED-RISK DRINKING AS A VIABLE
TREATMENT OPTION**
K. Mann (*Germany*)

8:40 **APPROACH-BIAS MODIFICATION: A NEW
BEHAVIOUR THERAPY FOR ALCOHOL DEPENDENCE**
R.W. Wiers, M. Rinck (*The Netherlands*)

9:00 **DEEP BRAIN STIMULATION FOR
TREATMENT REFRACTORY ALCOHOL
DEPENDENT PATIENTS**
J. Kuhn (*Germany*)

9:20 **DISCUSSION**

8:00 - 9:30

Room 13B

Symposium

NEUROIMAGING ADVANCES IN CHILD PSYCHIATRY: A JOINT SYMPOSIUM OF THE NEUROIMAGING AND CHILD PSYCHIATRY EPA SECTIONS

Chairpersons: S. Frangou (*USA*)
G. Zalsman (*Israel*)

- 8:00 **PROGRESSIVE LOSS OF PREFRONTAL CONNECTIVITY WITHIN THE WORKING MEMORY NETWORK: LONGITUDINAL DATA FROM AN EARLY ONSET SCHIZOPHRENIA COHORT**
M. Kyriakopoulos (*United Kingdom*)
- 8:20 **CORTICOLIMBIC CONNECTIVITY ABNORMALITIES IN ADOLESCENT BORDERLINE PERSONALITY DISORDER**
R. Brunner (*Germany*)
- 8:40 **NEUROBIOLOGIC AND NEURODEVELOPMENTAL TRAJECTORIES IN CHILDREN AT RISK FOR SEVERE PSYCHOPATHOLOGY**
T. White (*The Netherlands*)
- 9:00 **SYSTEMATIC REVIEW OF NEUROIMAGING CORRELATES OF SYMPTOM DIMENSIONS IN ASD**
M. Parellada (*Spain*)
- 9:20 **DISCUSSION**

8:00 - 9:30

Room 5

I've got ADHD.

**I've got it where
I want it.**

[†]Dose taken at 7am

Even at 13 hours post-dose, new once-daily Elvanse® [lisdexamfetamine dimesylate] improves his core ADHD symptoms.¹ Elvanse® provides consistent symptom control throughout his day.*²

For more information about Elvanse® and other Shire products visit www.fullattention.com

Elvanse® is indicated as part of a comprehensive treatment programme for attention deficit/hyperactivity disorder (ADHD) in children aged to 6 years and over when response to previous methylphenidate treatment is considered clinically inadequate.³

Elvanse® is not indicated in all children with ADHD and the decision to use the drug must be based on a very thorough assessment of the severity and chronicity of the child's symptoms in relation to the child's age and potential for abuse, misuse or diversion.³

Please consult the Elvanse® Summary of Product Characteristics (SmPC) before prescribing, particularly in relation to abuse and dependence, pre-treatment evaluation and ongoing monitoring, cardiovascular adverse events, psychiatric adverse events, tics, long-term suppression of growth (height and weight), seizures, visual disturbance, prescribing and dispensing, and use with other sympathomimetic drugs.

*Significant ADHD symptom control vs placebo at each measured time point, even at 13 hours post-dose.^{1,2}

Prescribing Information

ELVANSE 30mg, 50mg and 70mg capsules, hard.

(Before prescribing please consult the full Summary of Product Characteristics (SmPC).)

Active Ingredient: Lisdexamfetamine dimesylate 30mg, 50mg and 70mg.

Uses: ELVANSE is indicated as part of a comprehensive treatment programme for attention deficit/hyperactivity disorder (ADHD) in children aged 6 years of age and over when response to previous methylphenidate treatment is considered clinically inadequate. ELVANSE is not indicated in all children with ADHD and the decision to use the drug must be based on a very thorough assessment of the severity and chronicity of the child's symptoms in relation to the child's age and potential for abuse, misuse or diversion.

Dosage and Administration: *Children (aged 6 years and over) and adolescents:* For all patients the starting dose is 30mg taken once daily in the morning. The dose may be increased by 20mg increments, at approximately weekly intervals. ELVANSE should be administered orally at the lowest effective dosage. The maximum recommended dose is 70mg/day; higher doses have not been studied. *Administration:* ELVANSE may be swallowed whole, or the capsule opened and the entire contents dissolved in a glass of water. If the contents include any compacted powder, a spoon may be used to break apart the powder in the water. The contents should be stirred until completely dispersed. The patient should consume the full glass of water immediately; it should not be stored.

Long-term Use: Pharmacological treatment of ADHD may be needed for extended periods. The physician who elects to use ELVANSE for extended periods (over 12 months) should re-evaluate the usefulness of ELVANSE at least yearly, and consider trial periods off medication to assess the patient's functioning without pharmacotherapy, preferably during times of school holidays.

Contraindications: Hypersensitivity to sympathomimetic amines or any of the excipients, concomitant use of monoamine oxidase inhibitors or within 14 days after MAOI treatment, hyperthyroidism or thyrotoxicosis, agitated states, symptomatic cardiovascular disease, advanced arteriosclerosis, moderate to severe hypertension, glaucoma.

Warnings: Stimulants including ELVANSE have a potential for abuse, misuse, dependence or diversion for non-therapeutic uses that physicians should consider when prescribing these products. Stimulants should be prescribed cautiously to patients with a history of substance abuse. Monitor cardiovascular status carefully as sudden cardiac or unexplained death has been reported. Monitor psychiatric status as treatment may exacerbate symptoms of behaviour

disturbance and thought disorder in patients with pre-existing psychotic disorders. Particular care should be taken when using stimulants to treat ADHD patients with comorbid bipolar disorder because of concern for possible induction of mixed/manic episode. ELVANSE is associated with worsening or emergence of aggressive behaviour, onset or exacerbation of tics, worsening of Tourette's syndrome, worsening of pre-existing anxiety, agitation or tension. Use with caution in epileptics as may increase frequency of seizures.

Precautions: Monitor weight, growth, blood pressure. Difficulties with accommodation and blurring of vision have been reported with stimulant treatment. ELVANSE should be used with caution in patients who use other sympathomimetic drugs. The least amount of ELVANSE feasible should be prescribed or dispensed in order to minimise the risk of possible overdose by the patient.

Interactions: Extended-release guanfacine and venlafaxine, ascorbic acid and other agents that acidify urine, sodium bicarbonate and other agents that alkalise urine, monoamine oxidase inhibitors, antihypertensives, narcotic analgesics, chlorpromazine, haloperidol, lithium carbonate.

Pregnancy and Lactation: Not recommended.

Driving: Caution is advised.

Adverse Effects: *Very common:* Decreased appetite, insomnia, headache, upper abdominal pain, weight decreased. *Common:* Anorexia, tics, affect lability, psychomotor hyperactivity, aggression, dizziness, somnolence, mydriasis, dry mouth, diarrhoea, nausea, vomiting, rash, irritability, fatigue, pyrexia, tremors, tachycardia, palpitations, dyspnoea, upper abdominal pain, blood pressure increased.

Consult SmPC in relation to less common side effects.

Pharmaceutical Precautions: Store below 25°C.
