WELCOME ADDRESS

Dear Colleagues,

It is our great pleasure to welcome you to the **23rd European Congress of Psychiatry (EPA 2015)**, taking place 28-31 March 2015 in Vienna, Austria, a major meeting of international psychiatrists dedicated to promoting European Psychiatry and to improving mental health around the globe. On behalf of the European Psychiatric Association (EPA), it is our great pleasure to invite you to join us at this occasion.

Guided by the motto **Excellence in Psychiatry across Europe: Practice, Education, Research**, we have prepared a top-notch scientific programme that will cover the newest achievements in the field covering basic, clinical and translational research, and their application to evidence-based practice in diagnosis, treatment and education.

Through a variety of session types, including Plenary Lectures, EPA Academia Educational courses and a dedicated European Early Career Psychiatrists Programme, EPA 2015 will meet the needs of all participants, from trainees in Psychiatry to the most esteemed experts.

The EPA is committed to helping psychiatrists network, share research and learn from their colleagues and peers across Europe and beyond. Accordingly, we have developed an array of activities at the European Congress of Psychiatry which will allow these valuable connections to continue and flourish.

We welcome you to the enchanting city of Vienna and to EPA 2015.

Wolfgang Gaebel
EPA President

Michael Musalek
Local Organising Committee Chair

Please Tweet about the Congress using the hashtag **#EPA2015Vienna** and **username @Euro_Psychiatry**.

MOBILE PHONES

Mobile phones must be switched off or muted during all sessions.

SMOKING POLICY

Smoking is prohibited throughout the Congress venue. Please be considerate of the rules of the venue and your fellow participants.

LIABILITY AND INSURANCE

The Congress Secretariat and Organisers cannot accept liability for personal accidents or loss of or damage to private property of participants. Participants are advised not to leave their personal belongings unattended in session halls and throughout the Congress venue.

CARING FOR THE ENVIRONMENT

It is our belief that by employing a Green Culture in the workplace we can duplicate this culture and the responsibilities it entails. Organising green Congresses all over Europe is a real challenge as green is not only the onsite conduct but the suppliers we are using, the source of the raw materials, the methods of production, management of waste, shipping vs. using local products and fair management of labour throughout the supply chain.

PHOTOGRAPHY AND RECORDING PRIVILEGES

No photographs, video recording or audio recording may be permitted at EPA 2015 unless otherwise authorised by the Scientific Programme Committee or the EPA President.

GUEST ATTENDANCE POLICY

All event activities (including educational sessions, meal functions, exhibition hall, etc.) are exclusively reserved for registered attendees. SCIENTIFIC PROGRAMME OVERVIEW

The EPA 2015 Scientific Programme is composed of 4 main tracks; each track is composed of a variety of Plenary, State-of-the-Art, Pro & Con Debates, Symposia, and Workshop sessions:

-  **Research Track** – is composed of sessions with a focus on current research trends in Psychiatry.
-  **Clinical/Therapeutic Track** – offers participants updated, state-of-the-art, clinical and therapeutic information which is based on research and linked to daily practice.
-  **Educational Track** – provides an update on developments in the field and the opportunity for exchange of ideas between participants and speakers.
-  **European Track** – deals with common issues for psychiatrists from across Europe and will therefore be of particular interest for members of the National Psychiatric Associations.

Within each track, some sessions are part of the European Early Career Psychiatrists' Programme (EECPP) which invites recent graduates to participate and which is tailored to the needs of the Early Career Psychiatrist.

The Scientific Programme will also include:

-  **Free Communications Sessions** – there are 10 Free Communications Sessions classified by topics, in which the authors of selected outstanding abstracts will give a talk.
-  **Industry Supported Sessions** – there are 7 Satellite Symposia organised by pharmaceutical companies in consultation with the Scientific Programme Committee. Learn more about the Satellite Symposia in the Company and Exhibition Guide at the back of the Programme Book.
-  **e-Posters** – there are 10 e-Poster Oral Presentation sessions classified by topics, in which outstanding e-Posters will be presented electronically and orally. There are also 34 e-Poster Walk Sessions that take place during the lunch breaks.

All e-Posters are available for viewing during Congress hours in the e-Poster Area.

-  Section Academia Educational Courses, Symposia or Workshops
-  Session requiring Pre-registration
-  2015 Section Symposia Award Winner
-  European Early Career Psychiatrists Programme

ORAL PRESENTATIONS

Data presentation

If using a PowerPoint (or any other computer) presentation, please note you need to bring it on a CD, a DVD or on a USB Memory stick and load it on one of the Congress computers in the Speaker Ready Room, at least 1 hour before the start of the session. Please note that the Congress computers in the session halls are being supplied with Office 2013.

If combining video films with PowerPoint, please make sure to check it in the session hall where your lecture is taking place during a coffee or lunch break prior to your session, at least 30 minutes before the start of the session - even after checking it in the Speaker Ready Room.

Alternatively you may supply your own laptop computer. In such a case please confirm that it has a VGA socket for external signal and come to check it first in the Speaker Ready Room as soon as you arrive and later on in the session hall where your lecture is taking place during the coffee or lunch break prior to your session, at least 30 minutes before the start of the session.

Important note for Macintosh users

In order to use MAC presentations on a PC compatible computer please note that you need to prepare it according to the instructions below, before bringing it to the Speaker Ready Room:

1. Use a common font, such as Arial, Times New Roman, Verdana etc. (special fonts might be changed to a default font on a PowerPoint based PC).
2. Insert pictures as JPG files (and not TIF, PNG or PICT - these images will not be visible on a PowerPoint based PC).

Alternatively you may use your own Macintosh laptop computer. In such a case please confirm you provide it with a VGA adaptor for external signal and come to check it first in the Speaker Ready Room as soon as you arrive and later on in the session hall where your lecture is taking place during the coffee or lunch break prior to your session, at least 30 minutes before the start of the session.

PLEASE NOTE: IN COMPLIANCE WITH EACCME REQUIREMENTS ALL SPEAKERS ARE REQUESTED TO INCLUDE A SLIDE DISCLOSING CONFLICTS OF INTEREST AT THE BEGINNING OF THEIR PRESENTATION.

CONGRESS ACCREDITATION AND CERTIFICATE OF ATTENDANCE

EUROPEAN ACCREDITATION COUNCIL FOR CONTINUING MEDICAL EDUCATION (UEMS/EACCME)

The 23rd European Congress of Psychiatry (EPA 2015) is accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide the following CME activity for medical specialists. The EACCME is an institution of the European Union of Medical Specialists (UEMS): www.uems.net.

The 23rd European Congress of Psychiatry (EPA 2015) is designated for a maximum of, or up to, 21 European external CME credits. Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

AMERICAN MEDICAL ASSOCIATION (AMA)

Through an agreement between the European Union of Medical Specialists and the American Medical Association, physicians may convert EACCME credits to an equivalent number of *AMA PRA Category 1 Credits™*. Information on the process to convert EACCME credit to AMA credit can be found at www.ama-assn.org/go/internationalcme.

ROYAL COLLEGE OF PHYSICIANS & SURGEONS OF CANADA

Live educational activities, occurring outside of Canada, recognised by the UEMS-EACCME for ECMEC credits are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada. For more information, visit: www.royalcollege.ca.

CREDIT BREAKDOWN

Each participant should claim only those hours of credit that he/she actually spent in the educational activity.

TO RECEIVE YOUR CME/CPD CERTIFICATE

The CME/CPD certificate will be available after completing the online evaluation and credit claiming procedure after the congress. The process takes about 5 minutes. We thank you for your feedback as it is an important part of CME/CPD accreditation and helps improve future educational offerings.

Before 28 April 2015:

- Follow the link in the email notification that will be sent after the Congress or visit the CME/CPD Accreditation page on www.epa-congress.org.
- Complete the anonymous online evaluation.
- Complete the credit claim form and submit.
- The CME/CPD certificate will be available for download; fill-in and retain for your personal records.

DISCLOSURE AND RESOLUTION OF PERSONAL CONFLICTS OF INTEREST

In accordance with CME/CPD accreditation criteria and standards for commercial support to ensure balance, independence, objectivity and scientific rigor, those in control of the educational content must disclose potential or actual conflicts of interest. Disclosure information is evaluated and conflicts of interest resolved. Disclosure is made to participants prior to the activity. Participants will be asked on the evaluation to assess the objectivity and independence of the event. Disclosure information is available on the congress website.

EPA ACADEMIA EDUCATIONAL COURSE OVERVIEW

All courses below require pre-registration. 

EPA members can register for 2 courses for the price of 1.

Please contact the registration desk for additional information regarding availability of courses and registration.

Participants of the Courses are requested to present their badge itinerary or Course ticket at the entrance of the appropriate hall.

CERTIFICATE OF ATTENDANCE AT COURSES

A Certificate of Attendance at EPA Academia Educational Courses will be available after the Congress, once the online evaluation is completed. Participants of the courses will receive a link to complete the online evaluation and to claim their certificate. The certificate is electronically delivered to the participant's e-mail address.

ACCREDITATION

The EPA Academia Educational Courses are accredited within the accreditation of the 23rd European Congress of Psychiatry EPA 2015. These are to be claimed within the total number of CME credits claimed for EPA 2015, while respecting the maximum number of credits per day.

ABOUT THE EUROPEAN PSYCHIATRIC ASSOCIATION

The European Psychiatric Association (EPA) was founded in 1983. With active individual members in as many as 88 countries and 37 National Society/Association Members who represent over 78,500 European Psychiatrists, EPA is the main association representing Psychiatry in Europe. Its mission is to improve Psychiatry and mental health care in Europe. EPA members include leading experts in numerous fields, covered by 20 scientific Sections. EPA's activities address the interests of psychiatrists in academia, research and practice throughout all stages of career development. Together, EPA members contribute to the life of the association and to the development of Psychiatry in Europe. Each member has the possibility to actively contribute to ongoing projects and play a key role in shaping the future of the Association and its policy.

One of the important tasks for a European association is to maintain strong links with other European and international institutions and associations such as the Council of Europe, the World Health Organization (WHO), the European Union (EU), the European Union of Medical Specialists (UEMS), the European College of Neuropsychopharmacology (ECNP), the World Psychiatric Association (WPA), the European Brain Council (EBC), the European Federation of Psychiatric Trainees (EFPT), the European Conference on Schizophrenia Research (ECSR) and several patient and relatives organisations, such as the European Federation of Associations of Families of People with Mental Illness (EUFAMI) and the Global Alliance of Mental Illness Advocacy Networks-Europe (GAMIAN-Europe).

MISSION

To improve Psychiatry and mental health care in Europe.

ACTIVITIES

EPA accomplishes its mission through the following activities:

- Annual European Congress of Psychiatry
- *European Psychiatry* Journal, published in 8 issues per year, plus supplements
- EPA Academia Educational Courses, Summer School, Faculty Workshop and other forms of training under the umbrella of the EPA Academia for Excellence in European Psychiatry
- European Early Career Psychiatrists Programme and other projects aiming to give young professionals a voice in the evolution of training, research and practice standards to enable them to influence their own future and career progress
- A range of grants and prizes in psychiatric research

- 20 Sections, which collect, examine and disseminate information about their respective disciplines
- Cooperation with National Psychiatric Associations through EPA membership
- Practical guidance and position statements on topics of interest to the mental health community and beyond
- Initiatives on improving ethical standards of psychiatric care and practice
- Collaborative activities in partnership with international organisations working in the field of Psychiatry and mental health care

ACADEMIA

The EPA Academia for Excellence in European Psychiatry is aimed at developing educational initiatives that will contribute to professional excellence of European Psychiatrists and their adoption of the highest ethical principles in all forms of psychiatric service, education/teaching and research. The activities are defined and developed by the EPA Committee on Education and focus at present on proposing EPA Academia Educational Courses, organising a Summer School and other forms of training.

The EPA Academia Educational Courses Programme intends to increase knowledge, influence attitudes and provide professional and leadership skills to European Psychiatrists. The EPA Academia Educational Courses are generally 180-minute sessions designed to emphasise learning experiences that actively involve participants and include an opportunity for informal exchange with the faculty.

EUROPEAN PSYCHIATRIC NETWORK

Launched in 2011 by EPA, the European Psychiatric Network is a professional social community that provides exclusive access to a vibrant online exchange of ideas and information about hot topic issues in the psychiatric field. The Network brings with it a host of exclusive benefits, which allows you to:

- View and discuss highlighted e-Posters and webcasts
- Create searchable profiles with your research interests and publications
- Upload poster presentations, images and videos
- Start or participate in forum discussions
- RSVP to upcoming events in Psychiatry
- Gain visibility as an EPA member

To join the exclusive European Psychiatric Network, and begin networking with other European mental health professionals today, please visit: www.europsychiatric.com or scan the QR Code.

mPIVAS PROJECT

The EPA is a full partner in a European-level project called mPIVAS (mHealth psychoeducational intervention versus antipsychotic-induced side effects), initiated by the EPA Early Career Psychiatrists Committee (ECPC) and funded under the European Commission's Leonardo da Vinci Partnerships Programme.

The project aims at improving the monitoring of side effects of antipsychotic medication in clinical practice. For this purpose, innovative psycho-educational courses on the subject were organised during EPA 2014 Munich as well as in project countries, and a mobile application (PsyLOG) facilitating the monitoring of side effects has been produced.

At EPA 2015 Vienna, the European Early Career Psychiatrists Programme (EECPP) will feature a special symposium that will provide further insight on the topic and will present the preliminary results of the mPIVAS project. All interested congress participants are cordially welcome to attend this symposium.

EPA SECTIONS

EPA has established Sections that have their own steering committees. The 20 active EPA Sections focus on the different subspecialties of Psychiatry. Their mission is to collect and disseminate information, to establish working relations between individuals and with different national and international bodies working in the same field and to achieve greater coordination. These Sections can organise their own symposia under the aegis of EPA and annual conferences in Europe.

The EPA sections are:

- **Addictive Behaviours** (Chair: Falk Kiefer, *Germany*)
- **Child and Adolescent Psychiatry** (Chair: Romuald Brunner, *Germany*)
- **Consultation Liaison Psychiatry and Psychosomatics** (Chair: Albert Diefenbacher, *Germany*)
- **Cultural Psychiatry** (Chair: Meryam Schouler-Ocak, *Germany*)
- **Emergency Psychiatry** (Chair: Pier Maria Furlan, *Italy*)
- **Epidemiology and Social Psychiatry** (Chair: Robert Stewart, *UK*)
- **Forensic Psychiatry** (Chair: Birgit Völlm, *UK*)
- **Geriatric Psychiatry** (Chair: Reinhard Heun, *Germany*)
- **Mental Health and Intellectual Disabilities (MHID)** (Chair: Jane McCarthy, *UK*)
- **Neuroimaging** (Chair: Paolo Brambilla, *Italy*)
- **Philosophy and Psychiatry** (Chair: Giovanni Stanghellini, *Italy*)
- **Prevention of Mental Disorders** (Chair: Joachim Klosterkötter, *Germany*)
- **Psychopathology** (Chair: Michael Musalek, *Austria*)
- **Psychopharmacology** (Chair: István Bitter, *Hungary*)
- **Psychotherapy** (Chair: Fritz Hohagen, *Germany*)
- **Schizophrenia** (Chair: Silvana Galderisi, *Italy*)
- **Sexual Medicine and Mental Health** (Chair: Marcel Waldinger, *The Netherlands*)
- **Suicidology and Suicide Prevention** (Chair: Marco Sarchiapone, *Italy*)
- **TeleMental Health** (Chair: Davor Mucic, *Denmark*)
- **Women, Gender and Mental Health** (Chair: Anita Riecher, *Switzerland*)

YOU'VE ONLY JUST ARRIVED & ALREADY WE'RE THINKING OF YOUR NEXT TRIP

As the official airline network for the 23rd European Congress of Psychiatry, we'd like to thank you for choosing the Star Alliance network and hope that all goes really well for you here today.

Whilst you concentrate on the day's events, we hope you'll consider us the next time you need to attend a conference.

With over 18,500 flights a day to 1,316 airports across 192 countries, our 27 member airlines will extend a wide choice of flights to any future conference you're planning to attend. And no matter which of those airlines' frequent flyer programmes you belong to, you can earn and redeem miles across all of them.

So the next time you want to concentrate all your energies on your conference, we hope you'll decide to leave the travel arrangements to us.

Brussels 1000
Belgium
www.europeanbraincouncil.org

A Unique European Organisation

"By bringing together science and society, we advance understanding of the healthy and diseased brain to improve the lives of those living with brain disorders."

EBC is a unique organisation of its kind bringing together a host of European organisations with a specific interest in the brain. The members of EBC include pan-European bodies representing neurologists, basic neuroscientists, neurosurgeons, psychiatrists, neuro-psychopharmacologists as well as patient federations in those respective fields and relevant areas of industry and commerce. Throughout Europe's vast number of organisations, EBC is the only one allowing interest groups of different fields but all working on the brain, to join forces towards a common goal by:

- Driving Education and Awareness and contribute to the societal understanding of the healthy and the diseased brain;
- Promote Prevention and Treatment and develop and implement preventive measures and early diagnosis and advocate for improved care, treatment and access hereto
- Stimulating Innovation and increase innovation drive in brain disorders by promoting incentives for research and industrial R&D to the benefit of future generations

This way EBC speaks with one voice for society, science and industry.

Congrès Français de Psychiatrie

100 rue de la Santé
Paris, 75014
France
www.congresfrancaispsychiatrie.org

The French Congress of Psychiatry (CFP) gathers an important group of doctors taking care of mental health, and includes all important aspects of mental health care in France. It aimed to propose a national congress where all components of Psychiatry could share their scientific and theoretical background.

Through its national congress, since its very first congress in 2009, the CFP makes yearly updates on relevant scientific and clinical data in order to facilitate their access to clinicians, through different symposia, workshops and trainings. Another purpose of this congress is to propose debates where practitioners with different backgrounds could confront their references to colleagues with other backgrounds. Neuroscientists and psychoanalysts, CBT psychiatrists and biological treatment specialists, law experts and consumer representatives are therefore regularly participating to enrich discussions and learnings.

The CFP is having one congress a year, usually at the end of November every year, and moves from one large French town to another, in order to facilitate the participation of all French psychiatrists.

The CFP is a non-profit organization, therefore all benefits are being redistributed, with an emphasis on training (summer-school, 6 grants for a one-year research every year) and rewarding (6 prizes for the best publications of the year, prizes for the best posters.)

The CFP is also one of the National Psychiatric Associations representing France in EPA's Council of NPAs, and is therefore one of its active members.

WPA XVII World Congress of Psychiatry Berlin 2017
October 8-12, 2017

“Psychiatry of the 21st Century: Context, Controversies and Commitment”

World Psychiatric Association is committed to improving the health care of psychiatric patients through raising standards of training, education as well as clinical practice by providing added value. This Congress will be an excellent opportunity to share academic developments, research and clinical developments as well as build on social interactions and support each other.

Several countries across the globe are providing innovative services in spite of limited resources. This congress provides a show case for such developments and how we can learn from each other by sharing experiences and lessons. This World Congress is an ideal opportunity to take stock of the state of Psychiatry in the 21st century and the direction of future travel.

PROGRESS
IN MIND

Every minute of every day, the billions of cells in our brains send and receive signals that influence everything, from the memories we form to the emotions we feel. By studying the brain, Lundbeck hopes to better understand the underlying mechanisms of brain disease. The human brain is fascinating. Our fascination started almost a century ago. As one of the only pharmaceutical companies in the world solely dedicated and entirely focused on treatments for brain disease, we have developed and marketed leading medicines for alcohol dependence, depression and anxiety, psychosis, epilepsy, and Huntington's, Alzheimer's and Parkinson's diseases. Throughout the years, millions of people have been treated with our therapies. It is complex and challenging to develop improved treatments for brain disease, but we keep our focus: There is still so much we need to achieve in the next 100 years to ensure a better life for people living with brain disease.
