WELCOME ADDRESS

Dear Colleagues,

It is our great pleasure to welcome you very cordially to the 13th Congress of the Association of European Psychiatrists (AEP) which will take place in Munich, Germany.

The AEP, founded in 1983, is the largest international association of psychiatrists in Europe with members in 58 countries. In order to support the exchange of scientific and clinical knowledge, the AEP organizes its congresses now annually started with Geneva in 2004.

Due to its excellent facilities Munich has been chosen to host the AEP meeting for the first time in Germany. The theme of the Congress is:

"European Psychiatry: The interface between biological and social factors".

In the tradition of AEP and with the intention to cover all aspects of modern psychiatry, issues related to patients' care and life will be the focus of the scientific and educational program. You are all aware of the tremendous progress of neurobiological knowledge on brain functioning with main contributions coming from such different fields like genetics or neuroimaging. On the other hand, psychiatry has always been a discipline with a close contact to social sciences as there are sociology, psychology, philosophy or anthropology. The main challenge for psychiatry in our days is to organize a fruitful dialogue between the disciplines and to build an interface for the exchange of ideas and the latest discoveries.

Munich, where pioneer work in psychiatry has been done even before the times of Emil Kraepelin, is up to day still in the front line of psychiatry. Having always been a city of art and culture with a special flair, Munich traditionally had a strong attraction for psychiatry and is still one of the basis of psychiatric thinking.

The congress venue is the Gasteig culture centre, the residence of the famous Munich Philharmonic Orchestra. Located in the centre of Munich, it offers best facilities for such a congress as well as a closeness to all the attractive places of Munich like e.g. many famous museums, opera or theatres.

Please join us for this important and exciting scientific and social event, which will bring together colleagues from all over the world.

CME CREDITS

The 13th AEP Congress has been accredited by the European Union on Medical Specialists (U.E.M.S.) as well as by the Federal Accreditation Council of the Medical Association in Germany, represented by the Bavarian Council: Bayerische Ärztekammer.

European physicians will be accorded 0-000 credits per day from the U.E.M.S for the attendance to the scientific sessions from Sunday, 3 April to Wednesday, 6 April. A maximum of 000 credit points is awarded.

GENERAL INFORMATION

CME CREDITS

Physicians from Germany can obtain 30 credit points for the participation of the entire Congress from Sunday, 02 April to Wednesday, 06 April 2005. Participating in a course (half day) will be accorded 6 credit points. Of course, each physician should claim only those sessions for credit that he or she actually has attended in the educational activity.

In order to maintain CME accreditation, the AEP requires feedback on its educational activities. Therefore, we kindly ask you to complete your evaluation form at the end of each educational activity and to return it to the **Congress counter signed "CME" – at the mezzanine in the Gasteig Munich.**

The CME Certificate of U.E.M.S. or the Bayerische Ärztekammer will be issued to you at the Congress counter. Upon request the Certificate can also be mailed to you after the Congress.

CONGRESS LANGUAGE

The Congress language is English. There is no simultaneous translation provided.

PLENARY LECTURES

Each plenary lecture of 45 minutes will be given by leading psychiatrists and other mental health professionals and will cover major topics of the program.

SYMPOSIA

The symposia are organized and chaired by the proposer and have been accepted by an International Scientific Committee. These 90 minutes sessions focus on a specific topic in psychiatry, representing several point of views.

SECTION SYMPOSIA

These sessions have the same format as the symposia but are proposed by the AEP Sections.

WORKSHOPS

Workshops are 90 minutes sessions which typically involve brief presentations from individual panel members, followed by the opportunity for lively and informative discussion. This session type provides substantial audience participation and should be highly interactive.

COURSES

These 180 minutes sessions present advanced material on a chosen topic. Courses are designed to emphasize learning experiences that actively involve participants and include an opportunity for informal exchange with the faculty. They are devoted to topics of practical relevance and given by distinguished experts. Courses are part of the educational program and will give an excellent opportunity for learning new facts and treatment procedures. Fees are charged separately for the courses.

DEBATES/PRO - AND CON - DEBATES

During the 90 minutes debates and pro- and con-debates actual controversial issues will be introduced and discussed. One moderator and two speakers will raise various opinions on different subjects. The debates present two opinions from a different point of view; pro- and con-debates are designed to discussion with a pro- and con speaker.

MEET-THE-EXPERT SESSIONS

These very interactive sessions will start on 11.15 h for 60 minutes each day. Cases will be discussed with the participants. Delegates should actively participate in these Meet-the-Expert sessions.

BREAKFAST MEETINGS

From the 3 April to the 5 April 2005 breakfast meetings of 45 minutes are organized by the Young Psychiatrists on state-of-the-art topics of clinical and academic psychiatry relevant to young psychiatrists and trainees.

ORAL PRESENTATIONS

Authors were invited to submit papers on their latest research findings. Oral presentations were selected based on the review of all abstract submissions. The 90 minutes sessions are grouped by tracks and are conducted by a selected chairperson and co-chairperson.

POSTERS/POSTER PRESENTATIONS

The poster exhibition will be located on the first and second floor of the Gasteig. The posters are arranged according to the poster sessions and are numbered within these sessions. The posters will be presented for the whole congress time. The poster exhibition times are:

3 – 5 April 2005	08.00 – 18.00 h
6 April 2005	08.00 – 13.00 h

To give the posters special attention, the Organizing Committee has arranged poster presentations. Up to 15 -25 posters have been grouped by tracks for the poster presentations. These poster presentations will be guided by chairpersons and are held on:

Sunday, 3 April 2005 till	11.15 - 12.15 h
Tuesday, 5 April 2005	11.15 - 12.15 h
	18.00 - 19.30 h

and	
Wednesday, 6 April 2005	11.15 - 12.15 h

LUNCHEON SYMPOSIA

Luncheon symposia are organized by the Industry in consultation with the Scientific Committee and presented at the lunch time from 12.30 h until 14.00 h from Sunday, 3 April 2005 till Tuesday, 5 April 2005.

YOUNG PSYCHIATRISTS PROGRAM

YOUNG PSYCHIATRISTS PROGRAM

Dear Colleagues,

In 2003 an AEP initiative newly established a Young Psychiatrists Program which was held for the first time on a European psychiatric conference during the past Congress in Geneva, Switzerland. Under the presidency of Professor Henning Sass the AEP and its' scientific and organizing committees have made a special effort to continue the tradition of a Young Psychiatrists Program at the upcoming conference in Munich in April 2005. In 1999 Professor Norman Sartorius and the WPA together with the organizing Young Psychiatrists Committee established the first Young Psychiatrists Program at the XI World Congress of Psychiatry in Hamburg, Germany. The idea was to pay special attention to young psychiatrists attending international psychiatric conferences. Due to its' great success young psychiatrists programs today are an integral part of national, European and international congresses of psychiatry.

The AEP's Young Psychiatrists Program in 2005 will focus on "New Challenges for Young Psychiatrists in Europe". We are able to offer an exquisite scientific and social program to young congress attendees at all stages of their career. The next columns give you an overview of the program.

experience as well as to relax in a nice atmosphere and socialize with colleagues.

Meeting point for young psychiatrists and trainees, located in the foyer above the Carl-Orff-Hall, Gasteig.

Opening hours are:

3 to 5 April 2005, from 10.00 – 18.00 h,
and
on 6 April 2005 from 10.00 h
until the Closing Ceremony.

MEET-THE-EXPERT

There will take place Meet the Expert sessions at the Young Psychiatrists Coffee Lounge. The Meet the Expert sessions are designed to primarily target psychiatrists of the younger generation. The experts are leading figures of European psychiatry who are asked to contribute to aspects of "New challenges of Young psychiatrists in Europe". The Meet the Expert sessions are deliberately conceptualized as informal discussions in a relaxed atmosphere to guarantee a maximum of free interaction with the audience.

Meet the Expert sessions take place in the Young Psychiatrists Lounge. The sessions are limited to 100 participants. Pre-Registration are possible the lounge or at the front check-in desk. The introductory meet the expert session is named in the Final Program others will be announced during the congress in the Coffee lounge.

YOUNG PSYCHIATRISTS SYMPOSIUM

This is a special symposium for young psychiatrists highlighting **“New challenges for Young Psychiatrists in Europe”**. What are new challenges for young psychiatrists? What can we learn from the leaders in psychiatry? The symposium will focus on the question what necessary skills for young psychiatrists are in times of a unifying world on the one hand and rapid changes of several subsystems of society such as health, communication, ethics, politics and economics on the other?
