## WELCOME LETTER

***Dear Colleagues,***

*It is our pleasure to welcome you to the 16th European Congress of Psychiatry. This annual Congress is organized by the Association of European Psychiatrists (AEP), which is the largest international association of psychiatrists in Europe with members in 57 countries. The theme of the Congress is Pathways to Integrative Care, which are important in all health sectors, in particular psychiatry, where the professionals are confronted to a dual challenge.*

*First of all, developing practical care pathways adapted to the patients, while emphasizing the specificity of the field as to its relational and biological aspects. At the same time, these pathways are also to be structured so as to enable a multi disciplinary approach. The structuring of these care pathways must stand at the following levels:*

*(a) at teaching, student level and (b) at diagnostic, treatment and research level. The objective of this congress is to provide tools allowing each and one of us to reflect better on this type of organisation, based on the experience issued from different parts of Europe. The high quality Scientific Programme will include state-of-the-art lectures, plenary lectures and core symposia will indeed provide you with a full update on the most important aspects of treatment in psychiatry and on the latest achievements in this field. The Congress will serve as well the educational mission of the AEP through a variety of CME courses, educational workshops, lectures and symposia. The Congress is fully accredited by the EAC-CME of the UEMS (European Accreditation Committee for Continuous Medical Education).*

*Last, attending this meeting in Nice will also be an opportunity for you to discover, or rediscover, the capital and emblem of the French Riviera. The city of Nice is indeed both a world-famous and enchanting beach resort and an old city of unique charm with a very rich cultural, artistic and culinary tradition. Nice is also an excellent starting point for excursions in the nearby Côte d'Azur, which is renowned for its beautiful scenery and luminous light.*

*Welcome to Nice!*

16<sup>th</sup> EUROPEAN CONGRESS OF PSYCHIATRY

## AEP TODAY

The Association of European Psychiatrists is the largest international association of psychiatrists in Europe, with active members in as many as 57 European countries.

AEP is considered today as the main association of individual members that can speak for European psychiatry: it includes among its members leading European experts, it covers interests of psychiatrists in academia and in practice, it deals with psychiatry and its related disciplines and it focuses on the improvement of care for the mentally ill as well as on the development of professional excellence.

2008 will be a turning point in the history of AEP with ambitious projects: the launching of the AEP Academia for Excellence in European Psychiatry and the establishment of the AEP European Platform of Psychiatrists on an annual basis.

## AEP MISSION

The mission of AEP is to improve the quality of mental health care throughout Europe by

- enhancing the standard of psychiatric education and training
- promoting excellence in psychiatric research
- encouraging progress in psychiatric clinical practice
- supporting the development of public health policies relevant to mental health and the improvement of ethical standards of psychiatric care
- disseminating information about psychiatric research and practice
- collaborating and networking with national psychiatric associations
- favouring professional exchange between European psychiatrists
- accompanying the young psychiatrists in their professional development
- representing European Psychiatry in the framework of the various European institutions and as a key partner to the various national and international psychiatric associations

FINAL PROGRAMME  
Nice, France | April 5-9, 2008

## AEP ACTIVITIES

AEP accomplishes its mission through the following activities

- the organisation of the annual European Congress of Psychiatry
- the organisation of CME Courses
- the annual European Platform of Psychiatrists, aimed at developing and supporting concrete projects in European Psychiatry, along with national societies in Europe
- the organisation of the European Leaders Meeting in Psychiatry, a joint AEP-UEMS-WHO-WPA initiative, hosted by AEP every two years and gathering the most prominent psychiatrists in Europe
- the European Psychiatry Journal, published in 8 issues per year, plus supplements
- 17 active sections, which collect, examine and disseminate information about their respective disciplines
- collaborative activities in partnership with international organisations working in the field of mental health (ECNP, EBC, APA, UEMS, WPA etc.)
- a large panel of grants and prizes
  - AEP Research Prizes, aimed at rewarding European psychiatrists who have published the best scientific papers of the year
  - a scholarship programme for 15 young psychiatrists and trainees
  - the European Bristol-Myers Squibb Prevention Award in Psychiatry, established annually to reward distinguished research in the field of prevention in psychiatric disorders including psychosis, depression, anxiety and dementia
- regular AEP committee meeting in Europe, aiming at circulating information and implementing the action plan voted by the General Assembly composed of AEP members

## CONTINUING MEDICAL EDUCATION COURSES PROGRAMME

The AEP Continuing Medical Education (CME) course programme was launched in 2002 during the 11<sup>th</sup> European Congress of Psychiatry in Stockholm and was tailored to the professionals in mental health field willing to

- access continuing medical training and international education programmes
- be informed about new scientific data and new medical techniques that are essential for their daily practice

AEP organises CME Courses both during the annual European Congress of Psychiatry and under the format of AEP Itinerant CME courses along the year in collaboration with national psychiatric societies.

In 2008, the AEP Programme consists of 41 carefully selected CME courses lectured by course faculties from all over Europe. The AEP CME courses are designed to emphasise learning experiences that actively involve participants and include an opportunity for informal exchange with the faculty. Pedagogic materials and methods are tailored for the individual purposes of each CME course. They include modern and interactive tools such as case presentations, group discussions, visuals, handouts, selected bibliography and skills practice using role play and vignette.

The AEP CME courses are fully accredited by the European Accreditation Council for Continuing Medical Education (EACCME).

Further information (list of participating national societies, calendar of CME Courses and topics) can be found at [www.european-psychiatry.org](http://www.european-psychiatry.org).

## THE AEP CME COURSES IN THE EUROPEAN CONGRESS OF PSYCHIATRY

The European Congress of Psychiatry will serve the educational mission of AEP by providing high-quality Continuing Medical Education Courses, covering all aspects of psychiatry. These 180 minutes sessions will present advanced material on a chosen topic of practical relevance.

For a comprehensive list of Courses, please refer to page XIV.

FINAL PROGRAMME

## THE EUROPEAN PLATFORM OF PSYCHIATRISTS

The European Platform of Psychiatrists is a long-term project for AEP and represents a major evolution for the association. The objective of the AEP European Platform of Psychiatrists is to develop a basis of exchange and collection of inputs from the national societies in the following areas: education, accreditation, curricula, research networking, new international classification system, European professional networking, mental health care systems and their transformation in Europe and to streamline the different efforts of all organisations, national and international, in order to build the European Psychiatry.

The first AEP European Round Table on the theme: "Identity and Harmonisation of European Psychiatry" organised in November 2007 in Brussels, was a real success thanks to the active participation of 20 European representatives from national psychiatric societies in Europe.

AEP wishes to encourage these representatives to keep on expressing their vision for the future and invite them to attend the annual AEP European Platform of Psychiatrists where their inputs will be optimised into concrete projects with a European dimension.

## HOW TO BECOME AN AEP MEMBER

To become members of the AEP, candidates are invited to submit their applications to the Secretary General. Applications should be accompanied by a curriculum vitae and, if possible, by the names of two sponsors who are already members of the AEP.

You are welcome to step by the AEP booth, located in the Exhibition area to receive an application form.

Alternatively you may visit [www.aep.lu](http://www.aep.lu) to download the form and send

## SECTIONS SYMPOSIA

AEP has established sections that have their own steering committees. The AEP sections focus on the different subspecialties of psychiatry. Their mission is to collect and disseminate information, to establish working relations between individuals and with different national and international bodies working in the same field, and to achieve greater coordination. These Sections organise their own symposia under the aegis of AEP.

### **AEP gathers 17 active sections:**

- Alcoholism and Drug Addiction
- Personality and Personality Disorders
- Child and Adolescent Psychiatry
- Philosophy and Psychiatry
- Consultation Liaison Psychiatry
- Psychopathology
- Cultural Psychiatry
- Psychopharmacology
- Emergency Psychiatry
- Psychotherapy
- Epidemiology and Social Psychiatry
- Schizophrenia
- Forensic Psychiatry
- Suicidology and Suicide Prevention
- Geriatric Psychiatry
- Women's Mental Health
- Neuroimaging

## YOUNG PSYCHIATRISTS PROGRAMME

Following the great success of the Young Psychiatrists Programme in Munich 2005, Nice 2006 and Madrid 2007, the AEP decided to continue this initiative also in Nice 2008.

The AEP 2008 Young Psychiatrists Programme will focus on **Visions in European Psychiatry for Young Psychiatrists and Trainees**.

The Young Psychiatrists Lounge is a meeting point exclusively reserved for Young Psychiatrists with possibilities for networking and recruiting. The lounge will also host specific events exclusively reserved for Young Psychiatrists.

The lounge is located on the 2nd floor and is open as follows:

Sunday, April 6	08:00-19:30
Monday, April 7	08:00-18:00
Tuesday, April 8	08:00-19:30
Wednesday, April 9	08:00-13:00

The Meet the Expert sessions are conceptualized as informal discussions in a relaxed atmosphere to guarantee a maximum of free interaction with the audience. **Young Psychiatrists are invited to pre-register to the Meet the Expert sessions at the Registration Desk. Seats are limited and will be distributed on a "First come, First serve" basis.**

**The programme includes the following sessions which will take place at the Young Psychiatrists Lounge, unless indicated otherwise.**

## INFORMATION FOR PRESENTERS

### ORAL PRESENTATIONS

A Speakers' Ready Room will be available on the 2nd floor for the duration of the Congress.

#### Data presentation

If using a Powerpoint (or any other computer) presentation, please note you need to bring it on a CD or on a "disk on key" (using the USB port in the computer) and load it on one of the congress' computers in the Speakers' Ready Room, at least 1 hour before the start of the session. You may supply your own laptop computer as a back-up.

If combining video films with PowerPoint, please make sure to check it in the session hall where your lecture is taking place during a coffee or lunch break prior to your session, **or at least 30 minutes before the start of the session - even after checking it in the Speakers' Ready Room.**

Please note that the congress' computers in the session halls are being supplied with Windows XP and Office XP (at least).

---

#### Important Note for Macintosh Users

---

If using a Macintosh laptop computer, please note that you need to supply your own, confirm that it has a VGA socket for external signal and come to check it first in the Speakers' Ready Room as soon as you arrive and later on in the session hall where your lecture is taking place during the coffee or lunch break prior to your session, at least 30 minutes before the start of the session.

Data projection is standard equipment which is available in all session halls. Presenters who require other AV equipment are requested to inform one of the on-site technicians immediately. We will do our utmost to provide these services but cannot guarantee that they will be available upon request. Please note that slide projection and overhead projection will not be available.

FINAL PROGRAMME  
Nice, France | April 5-9, 2008

## POSTERS

### Poster Walk Information

Parallel Poster Walk Presentations will be given on Sunday, April 6th, Monday, April 7th, and Tuesday, April 8th at 12:00-13:00.

Certain posters were selected to be orally presented, in a poster walk session. All are invited to the Poster Area at the above times to hear the short presentations and to ask questions. Please note that there are three parallel walks in each session, consisting of a number of posters in each walk. You may find your session of interest by finding the poster board numbers that correspond to those walks, from the program.

Presenters should be at their poster boards 15 minutes before the start of the poster walk session and remain there until they have concluded presentation.

### BEST POSTER PRIZES

Poster prizes will be allocated per topic, depending on the decision of the poster chairpersons.

Each winner will receive a prize in the amount of €300.
